Subject: Conditional Approval of Mining and Reclamation Plan (MRP) Update, Savage Services Corporation, Savage Coal Terminal, C/007/0022, Task ID #3222

Dear Mr. Guy:

The Division of Oil, Gas and Mining (the Division) has received your technical analysis response for the MRP update application. The Division had previously identified deficiencies associated with this application under tasks 2759 and 2955. This resubmitted application adequately addresses all the previous deficiencies and is therefore conditionally approved upon receipt of 4 clean copies prepared for incorporation.

A stamped incorporated copy of the approved plans will also be returned to you at that time, for insertion into your copy of the Mining and Reclamation Plan. This modification does not necessitate an update to the Technical Analysis.

The new team lead assigned to this site is April Abate. Please feel free to contact April at 801-538-5214 with any questions or concerns you may have.

Sincerely,

James D. Smith
Permit Supervisor
